"Well, I cannot describe the success of this expedition in just few words, perhaps as it titled above: The ultimate expedition across the Mongolian steppes. We recorded no less than 260 species, and photographed over 230 of them!"

- Hadoram Shirihai, Israel, 2013 -

About Us

Mongolian Ornithological Society and Mongolica Travel cooperate in close relationship to develop authentic birding and wildlife tours to Mongolia for more than 10 years. Our efforts in sustainability reflect our commitment to the idea that our children and grandchildren will have a wonderful natural environment to explore throughout their lives. Our team comprises some of the most experienced experts in the field.

We are confident our inspiring tours and services will ensure our clients have the best possible stay in Mongolia, experiencing the traditional nomadic lifestyle in a sustainable manner.

Our passion is ensuring you get behind the scenes to be part of a genuinely fantastic wildlife experience. Preserving cultural heritage and conserving the natural environment, whilst improving the lives of local people, is the essence of our way of travelling with you and is integrated into every decision and action we make.
